PROFILE

Experienced IT professional with a strong focus on Java microservices development and implementation, as well as a solid background in PL/SQL. Over 8 years of hands-on experience in designing and optimizing web applications using cutting-edge technologies, including Java, Redhat OCP, Docker, and more. Adept at refactoring and enhancing system performance through seamless transitions from legacy systems to Java microservices architecture.

Proven track record of delivering scalable and efficient solutions that drive innovation and elevate user experiences. Passionate about leveraging Java microservices and PL/SQL to create robust and forward-looking software solutions.

WORK EXPERIENCE

IT staff (Intern) LPO Carmona

01/2016 - 02/2016 CARMONA, PHILIPPINES

Roles and Responsibilities:

- Efficiently installed and configured software and hardware.
- Successfully maintained and repaired equipment to ensure optimal functionality.
- Expertly diagnosed and resolved various computer issues.
- Skillfully automated the processing of office documents for improved efficiency.

Technologies Used:

· PHP, MySQL, C#

Industry:

· Law firm

Framework: Laravel

IDE/Tools: Sublime, XAMPP, PHP MySQL Admin

Software developer UST Global Inc.

11/2016 - 12/2018 TAGUIG, PHILIPPINES

Roles and Responsibilities:

- Mentored and coached new resources joining the project
- Built and deployed API to production (war file)
- Provided support to onshore developers
- Implemented coding standards and conducted unit tests
- Conducted bug-fixing activities
- Provided regular project updates to onshore clients
- Refactored and migrated applications to different technologies
- Implemented feature enhancements

Technologies Used:

· Java, Angular JS, Angular 2, Angular 5, Springboot, Hibernate, Jenkins, CentOS, PL/SQL

Industry:

· Retail
· Security
· Medical

Framework: Spring Boot, Angular

IDE/Tools: Visual Studio Code, IntelliJ, Eclipse, Putty, Oracle Database Developer

WORK EXPERIENCE

Java Developer HC Consumer Finance, Inc.

12/2018 - 07/2021 BONIFACIO GLOBAL CITY, PHILIPPINES

Roles and Responsibilities:

- Implemented microservices to enhance the functionality of the application
- Provided round-the-clock production support to ensure uninterrupted service availability
- Conducted thorough log tracing to identify and resolve issues promptly
- Ensure robust security measures by actively conducting security assurance activities
- Successfully implemented the Eureka Server for efficient service discovery
- Held accountable for identifying and addressing any system breaches to maintain data integrity and privacy.

Technologies Used:

• Java, Gitlab (CI/CD), Linux, Spring boot 2, Oracle SQL, JMS Queue, Load Balancer

Industry:

- Consumer Finance
- Bank

Framework: Spring Boot

IDE/Tools: IntelliJ, Putty, Oracle Database Developer, Kibana, Eureka, Sleuth

Java Engineer III ING Business Shared Service B.V.

08/2021 - 09/2022 BONIFACIO GLOBAL CITY, PHILIPPINES

Roles and Responsibilities:

- Successfully executed the integration of COBOL with the Java API, ensuring seamless interoperability and improved system functionality.
- Provided 24/7 production support, effectively resolving critical issues and ensuring uninterrupted operations.
- Conducted thorough log tracing to identify and rectify bugs, enhancing system performance and stability.
- Assured the security of the system through rigorous testing and the implementation of robust security measures.

Technologies Used:

• Java, Azure Cloud, Linux, Spring boot 2, Oracle SQL, Legstar, and COBOL

Industry

- Bank

Framework: Merak

IDE/Tools: IntelliJ, Docker, Kibana, OpenCOBOL, Oracle Database Developer

Java Developer DSS Asia - Bill Rush

10/2023 - 04/2024

Roles and Responsibilities:

- Developed and maintained web applications using Java, Spring Framework, and Hibernate to improve functionality and performance.
- Collaborated with cross-functional teams to design and implement new features and enhancements, resulting in increased user satisfaction.
- Conducted code reviews and performed unit testing to ensure high quality, clean, and efficient code.
- Resolved complex technical issues and provided ongoing support and maintenance for existing Java applications.

Technologies Used:

• Java, Springboot, Docker, Kubernetes, Google Cloud, NgRok, KillBill

Industry

- Bank

Framework

- Springboot

IDE/Tools

- IntelliJ, Grafana, Postman, NgRok

WORK
EXPERIENCE

Java Developer
Metalsupermarkets

11/2023 - 07/2024

Roles and Responsibilities:

- Develop custom modules, enhancements, and integrations based on the specific requirements of the business.
- Write, test, and debug Java code for the Openbravo ERP system, ensuring high-quality and maintainable code.
- Integrate Openbravo with other systems and third-party applications using RESTful or SOAP APIs.

Technologies Used:

- Java EE, Openbravo, Html, JSP, PostgreSQL

Industry:

- Ewallet

Framework:

- Spring

IDE/Tools:

- Eclipse
- JSP
- Jasper Report

EDUCATION

Bachelor of Science | Computer Science
Cavite State University

06/2012 - 05/2016 INDANG, PHILIPPINES

The BS in Computer Science program includes the study of computing concepts and theories, algorithmic foundations, and new developments in computing. The program prepares students to design and create algorithmically complex software and develop new and effective algorithms for solving computing problems.

The program also includes the study of standards and practices in Software Engineering. It prepares students to acquire the skills and disciplines required for designing, writing, and modifying software components, modules, and applications that comprise software solutions.

Master | Information Technology
De la Salle University

06/2023 - present DASMARINAS CITY, PHILIPPINES

The Master in Information Technology (MIT) program combines knowledge in organizational systems, information security, information management, and service management. Based on a multidisciplinary curriculum, the program shall equip professionals with the necessary tools, knowledge, skill requirements, and understanding of the latest technologies that are being used in today's business-organizational environment. The program also addresses the behavioral, managerial, and technical aspects of ICT in the context of organizational systems.

ACHIEVEMENTS

- [1Z0-1105-23] Oracle Cloud Data Management 2023 Foundations Associate
- [1Z0-1122-23] Oracle Cloud Infrastructure 2023 AI Foundations Associate
- [1Z0-1085-23] Oracle Cloud Infrastructure 2023 Foundations Associate
- [PCEP-30-02] PCEP - Certified Entry-Level Python Programmer
- Professional Scrum Developer™ I (PSD I)
- AWS Hackdays 2020: Top 10 finalist
- Home Credit Philippines: Hackathon 2019 (2nd place)
- Home Credit Philippines: Test-Driven Development
- Home Credit Philippines: Agile Development
- Home Credit Philippines: Scrum Development
- UST Global Bootcamp (Testing, Development, JSP, Java, Hibernate, SpringBoot)
- UST Global: Angular 2 Training
- UST Global: Microservice
- UST Global: Microservice logs management
- Cavite State University: Network Empowerment (Certified)
- Cavite State University: Mobile Application Development (Certified)
- Cavite State University: HTML 5: The future of Digital Publishing (Certified)
- Google Developers: Google I/O 2015
- EGlobio: Windows Phone Programming (Certified)
- EGlobio-Technopreneurship (Certified)
- EGlobio - Unity 3D (Certified)
- EGlobio - Character Animation (Certified)
- Udemy: Learn to Code by Making Games: A Complete C# Unity Developer
- (Hackathon) UST Global Inc., Creative Minds At Work (Certified)
